**Re: MODENA OneSolve – Vault Implementation**

Waco Africa has been partnering with MODENA OneSolve for many years now and it is with great comfort that I am writing to recommend their services. As a Group we rely heavily on MODENA OneSolve for all our Autodesk related requirements – anything from advice and training to licensing and customization of strategic implementations.

With the whole world being turned upside down due to the Covid-19 pandemic, we too had to adapt and change our business processes to ensure sustainability. One of these changes entailed that our Technical staff would be permanently working from home, which came with its own unique challenges. Working from a multitude of geographical locations, at the same time and (often) on the same project, meant that we had to find and implement a solution which would enable all our staff to share and work on the same set of data from anywhere in the world. Not only was collaboration a key aspect, but we were also looking at improving our efficiencies and controlling (or rather mitigating) our risks much better.

MODENA OneSolve to the rescue! After our initial discussions with the Modena team, the guys quickly put a proposal together for us, which not only addressed all our requirements, but were also very reasonably priced. They did an excellent job. There were no issues when we had to move things around or change some functionalities. They were always there to help us throughout the entire implementation process, as well as (very importantly) afterwards, to assist us with the change management and roll-out to our staff.

The MODENA team had all the required expertise and product knowledge to ensure a hugely successful project. The project timelines, costs and deliverables were all met in spite of some very challenging and disruptive circumstances – testimony to their dedication and excellent work ethic.

I'm happy to recommend the services of MODENA OneSolve. Please feel free to contact me should you require any additional information or verification.

Sincerely,

Otto Botha  
Director
